(57) Abstract: The present invention provides synthetic CXCR3 ligands, including consensus CXCR3 ligands and hybrid CXCR3 ligands; and compositions comprising the ligands. The present invention provides polynucleotides encoding the synthetic CXCR3 ligands; expression vectors comprising the polynucleotides; and host cells comprising the polynucleotides. The present invention provides methods of treating fibrotic disorders; methods of treating angiogenic disorders; methods of treating cancer; and methods of treating bacterial infections. The methods generally involve administering to an individual in need thereof an effective amount of a subject synthetic CXCR3 ligand.
